## MAIN FEATURE

### THE DISASTER ARTIST

This is the hilarious, poignant story behind the “Citizen Kane of bad movies,” cult hit *The Room*. Aspiring thesp Greg (Dave Franco) is inspired by fellow student, Tommy Wiseau (James Franco, never better as star and director). Wiseau is a bizarre man of mystery who responds to failure in Hollywood by undertaking to write/act in/direct/finance a movie for both to star in. Egos and antics on set defy description, and the resulting film became a success of an order Wiseau never imagined. “James Franco’s meticulous retelling of the making of ‘the greatest bad movie ever’ is a **tragicomic tour de force.**” ★★★★★ Mark Kermode. **Greene Sunday**, 10 Dec, rewards film fans with tix at £2.50.

### STAR WARS: THE LAST JEDI

Not long now... The future is in the hands of new characters Rey, Finn and Poe. Luke Skywalker returns, and other favourite characters are revived literally from beyond the grave. And the teasers indicate someone – *someone* – goes over to the Dark Side... Be the first to know who by attending our premiere double bill, *The Force Awakens + The Last Jedi*, on Wed 13 Dec. There are screenings at a time and price to suit everyone, including family matinees at £5 over the Christmas hols – our gift to you!
