MAIN FEATURE

BLACK PANTHER

Marvel lets rip in this subversive, uproarious African superhero adventure! T'Challa, a.k.a. the Black Panther (Chadwick Boseman), returns to Wakanda, a land of secret technology and sophistication built on the miracle element, vibranium. Surrounded by some pretty awesome women – including secret agent Lupita Nyong'o – you'd think that if T'Challa could just protect Wakanda from the outside world it would be Paradise found, but no such prospect: there is a pretender to T'Challa's throne, the CIA are about, and word of the valuable vibranium has leaked out... *"Elevates superhero cinema to exciting new heights."* ★★★★★ Rotten Tomatoes

LADY BIRD

"A coming-of-age story like no other, "Lady Bird" is smart, emotional, funny and completely original. Rarely has a directorial debut been so assured, so singular and so heart-warmingly affecting." ★★★★★ Empire

BEING BLACKER + Q&A

LEXDOX

A special Q&A show of BAFTA-winning filmmaker Molly Dineen's new film about well-known reggae record shop owner and music producer, Blacker Dread, his extended family, friends and the wider Brixton community. Made with Dineen's characteristic intimacy, this provides great insight into what it is to be black in Britain today.

Met Opera Live: SEMIRAMIDE

Rossini's opera about the mysterious Queen of Babylon returns to the Met after 25 years' absence. *"Dazzling!"*
